

HOGWARTS SCHOOL OF WITCHCRAFT AND WIZARDRY

HOGWARTS SELECTION EXAMINATION (EVS)

Name: _____

Class: 4th Standard

Time: 2 Hours

Max. Marks: 50

SECTION A: CHOOSE THE CORRECT OPTION

(1 Mark each = 10 Marks)

1. Which of the following is an example of biodegradable waste?

- | | |
|-------------------|-----------------|
| a) Plastic bottle | b) Fruit peels |
| c) Glass jar | d) Aluminum can |

2. The process of changing water into water vapor by heating is called: a)

- | | |
|--------------|----------------|
| Condensation | b) Evaporation |
| c) Freezing | d) Melting |

3. Which of these is NOT one of the 4 Rs of waste management?

- | | |
|-----------|------------|
| a) Reduce | b) Reuse |
| c) Run | d) Recycle |

4. What is the process of removing salt from sea water to make it fit for drinking?

- | | |
|-----------------|---------------|
| a) Desalination | b) Filtration |
| c) Evaporation | d) Boiling |

5. Who takes care of the cleanliness, street lights, and garbage collection in a city? a)

- | | |
|--------------------|------------------------------|
| The Police | b) The Municipal Corporation |
| c) The Post Office | d) The Bank |

6. When harmful waste and chemicals are thrown into the sea, it causes: a) Air

- | | |
|---------------------|--------------------|
| Pollution | b) Noise Pollution |
| c) Marine Pollution | d) Soil Pollution |

7. Water vapor cools down to form water droplets. This process is called: a)

- | | |
|-----------------|-----------------|
| Evaporation | b) Condensation |
| c) Desalination | d) Freezing |

8. Which bin is used for collecting non-biodegradable waste (like plastic)?

- a) Green Bin
- b) Blue Bin
- c) Red Bin
- d) Yellow Bin

9. The continuous movement of water from the Earth to the sky and back is called:

- a) The Water Cycle
- b) The Rain Dance
- c) Water Harvesting
- d) Desalination

10. At 0°C, water changes into ice. This is called:

- a) Melting
 - b) Boiling
 - c) Freezing
 - d) Heating
-

SECTION B: FILL IN THE BLANKS

(1 Mark each = 10 Marks)

1. Waste that rots and mixes with the soil naturally is called _____ waste.
 2. The _____ Corporation maintains parks and roads in our city.
 3. _____ is the main source of fresh water on earth.
 4. We should separate our waste into wet and _____ waste.
 5. _____ pollution harms fish and other sea animals.
 6. The four Rs are: Refuse, Reduce, Reuse, and _____.
 7. _____ is the gas form of water.
 8. Plastic bags are an example of _____ waste.
 9. Drinking dirty water can cause _____.
 10. Clouds are formed due to the process of _____.
-

SECTION C: TRUE OR FALSE

(1 Mark each = 5 Marks)

1. We should keep the tap running while brushing our teeth. (_____)
 2. The Municipal Corporation provides clean water supply to homes. (_____)
 3. Non-biodegradable waste decomposes (rots) very quickly. (_____)
 4. The water cycle happens naturally in the environment. (_____)
 5. Throwing plastic into the ocean is safe for marine life. (_____)
-

SECTION D: QUESTION AND ANSWERS

(Total = 15 Marks)

Q1. Define the following terms: (2 Marks)

-
-
-
-
-
-

-
-
-
-
-

[illegible]

SECTION E: DIAGRAMS

(5 Marks each = 10 Marks)

Q1. Draw a neat and labeled diagram of the WATER CYCLE.

Q2. Draw two dustbins to show waste segregation.

- Draw one **GREEN** bin (Label it: Biodegradable) with one example of waste inside.
- Draw one **BLUE** bin (Label it: Non-Biodegradable) with one example of waste inside.

Good Luck!
